

NURS5009: Assessment One (1) - Presentation (Pre-recorded video) - Assessmen...

...

NURS5009 - Assessment details:

Summary

Unit Code Title	NURS5009: THE HEALTH NARRATIVE ACROSS THE LIFESPAN
Assessment Type	Assessment 1: Presentation (pre-recorded video)
Due Date	Monday 21st of September 2026, 11:59 pm AEST (start of Week 4 - Term 4)
Length / Duration	5 minutes +/- 10% – which is +/- 30 seconds; [4 minutes and 30 seconds to 5 minutes and 30 seconds]
Weight	50%
Academic Integrity: GenAI Use level	Level 3. GenAI Use Prohibited. Generative Artificial Intelligence (GenAI) tools, such as ChatGPT, may not be used for this Assessment Task. You are required to demonstrate if you have developed the unit's skills and knowledge without the support of GenAI. If you use GenAI tools in your assessment task, it may result in an academic integrity breach against you as described in the Student Academic and Non-Academic Misconduct Rules, Section 3 .
Individual / Group	Individual
Submission	Watch this video to learn how to record your presentation in zoom: Record your Presentation in Zoom Watch this video to learn how to upload your recording to Panopto: Submit a video assignment using Panopto (Ultra) Submit your assessment file via " Assessment 1: Presentation (Pre-recorded video) ", in the Assessments section on the Blackboard Ultra NURS5009 – T4 (2026) unit site.
Unit Learning Outcomes (ULOS)	This assessment task maps to the following ULOs: ULO1: critically analyse the construction and diverse meanings of health, wellness, illness and disease for the health consumers narrative in local and global settings ULO2: demonstrate an advanced and integrated understanding of cognitive and developmental milestones which affect children from the neonatal period to adolescence and the associated clinical manifestations ULO3: demonstrate cultural responsiveness and respect for the identity and dignity of all persons, including Aboriginal and Torres Strait Islander people

Rationale

In this assessment, you will engage with the concept of the Illness-Wellness Continuum, a model attributed to Dr. Travis, which offers a holistic perspective on health and well-being that was covered in [Module 1](#). You will begin completing an activity that requires you to [score on the illness-wellness continuum](#). *This explores this continuum and its implications.*

Task Description

You are required to create a 5-minute video presentation that demonstrates your understanding of the Illness-Wellness Continuum and addresses specific learning outcomes.

Task Instructions

Task Instructions

1. Watch the video on the Illness-Wellness Continuum in Module 1, based on the work of Dr John Travis.
2. Reflect on the concepts presented in the video and consider how they relate to health across the lifespan.
3. Review the cognitive and developmental milestones from the neonate period to adolescence, including the associated clinical manifestations.
4. Using your understanding of the Illness-Wellness Continuum, prepare a 5 minute pre-recorded video presentation.

Important: Your presentation must be delivered **without the use of PowerPoint, notes or prompts**. Assessment will also consider your pace, clarity, eye contact, language and overall presentation.

In your presentation, address the following:

1. Understanding the Illness-Wellness Continuum

- Analyse and explain the core concepts of the Illness-Wellness Continuum.
- Discuss how the continuum challenges traditional concepts of health and illness.

2. Applying the Illness-Wellness Continuum Across Developmental Stages

Choose **two (2)** of the following developmental stages:

- Neonate

- Adolescence

For **each** of the two developmental stages, select **one health-related example** relevant to that age group and demonstrate your understanding of how the Illness-Wellness Continuum can be applied.

One example must be from the Australian context, and the other from a global context.

For each of the two examples:

- Describe the selected developmental stage and the health-related example within the chosen context (Australia or global).
- Explain how the developmental characteristics of the selected age group influence the health needs or health-related issues.
- Explain how the Illness-Wellness Continuum can be applied to the example.
- Discuss health promotion strategies that support movement towards wellness and the nurse's role in promoting this.

3. Application of the Illness-Wellness Continuum to Diverse Health Consumer Narratives

Demonstrate your analysis and discuss how the Illness-Wellness Continuum can be applied to diverse health consumer narratives.

In your discussion:

- Explain how the Illness-Wellness Continuum can be applied to people from diverse backgrounds and life experiences.
- Discuss the role of the nurse in promoting health and well-being for diverse health consumers.

4. Considerations of Cultural Responsiveness and Respect

Demonstrate your analysis and discuss the importance of culturally responsive and respectful nursing practice when caring for diverse health consumers.

In your discussion:

- Explain how culturally responsive and respectful nursing practice influences health and wellbeing.
- Describe how nurses can provide person-centred care that respects the values, beliefs and preferences of individuals from diverse backgrounds.

Resources

To complete this assessment, you will need the following resources.

- Complete the Illness-Wellness Continuum Activity available on the Blackboard site as part of your preparation for submission.

Referencing

No references are required.

GenAI use

This assessment is classified as:

- **Level 3: AI use not permitted.** You must not use AI for any part of the assessment.

GenAI May Not be Used

- Generative Artificial Intelligence (GenAI) tools, such as ChatGPT, **may not be used** for this Assessment Task. You are required to demonstrate if you have developed the unit's skills and knowledge without the support of GenAI. If you use GenAI tools in your assessment task, it may result in an academic integrity breach against you as described in the [Student Academic and Non-Academic Misconduct Rules, Section 3](#).

Academic Integrity

At Southern Cross University academic integrity means behaving with the values of honesty, fairness, trustworthiness, courage, responsibility, and respect in relation to academic work.

The Southern Cross University Academic Integrity Framework aims to develop a holistic, systematic, and consistent approach to addressing academic integrity across the entire University. For more information see the [SCU Academic Integrity Framework](#).

NOTE: Academic Integrity breaches include unacceptable use of generative artificial intelligence (GenAI) tools, the use of GenAI has not been appropriately acknowledged or is beyond the acceptable limit as defined in the Assessment, poor referencing, not identifying direct quotations correctly, close paraphrasing, plagiarism, recycling, misrepresentation, collusion, cheating, contract cheating, fabricating information.

Submissions

What to submit

To complete this assignment, you must submit the following items:

- * Your video must be a maximum of 5 minutes (strict time limits) **MP4** file presentation through **Zoom**. Please note there is an allowance of **+/- 10% – which is +/- 30 seconds**. Therefore, the submitted video length can vary between 4 minutes and 30 seconds to 5 minutes and 30 seconds. Any content presented after the **5 minutes 30 seconds** will not be marked, and it is not possible to meet the task requirements with work less than **4 minutes 30 seconds**.
- * You must have your **camera turned on** and record yourself presenting.
- * Please state your name at the start of the recording.
- * You can record your presentation on Zoom repeatedly before choosing which file to upload via Panopto. You may pause Zoom while recording if needed.

When to submit

SCU assessment deadlines are set to New South Wales (NSW) Time. Blackboard Ultra automatically converts this deadline to match your local time. Remember, the date and time displayed in the **assessment submission** portal is the due date adjusted for your location. You must submit your work **before** this displayed time.

*Upload your recorded presentation file to "Assessment 1: Presentation (Pre-recorded video) – submission", in the Assessments section on the Blackboard Ultra NURS5009 – T4 (2026) site by **Monday 21st of September 2026, 11:59 pm AEST (start of Week 4 – Term 4)**.

You must label your assessment submission with your surname and initials and the assessment task's name, e.g. ProcterD_Assessment 1.

How to Submit

To begin the submission process, navigate to **Assessments** and select **"Assessment 1: Presentation (Pre-recorded video) – submission"** to upload your files.

Please view this video to assist with instructions on how to record yourself speaking at the same time: [How To Record Video and Audio on Zoom](#).

*High-Definition recordings are not required or supported.

*The following resources explain how to then submit a video assignment file using Panopto in Blackboard Ultra. **You must follow the upload instructions in the video below:**

- **Video tutorial:** [Submit a video assignment using Panopto \(Ultra\)](#)
- **PDF guide:** [Submit a video assignment using Panopto \(Ultra\).pdf](#)
- **Further information:** [How to Submit a Video Assignment in Blackboard Ultra](#)

You are only allowed to upload your video to Panopto once. Please ensure you upload the correct version for marking. You will not be able to resubmit if you upload the incorrect version.

If you experience technical difficulties during the submission process, please contact [Technology Services](#) during business hours - Monday to Friday 8:00 am - 5:00 pm (AEST).

Special Consideration

Please refer to the [Special Consideration](#) section of Policy.

Late Submissions & Penalties

Please refer to the [Late Submission & Penalties](#) section of Policy.

Grades & Feedback

Assessments that have been submitted by the due date will receive an SCU grade. Grades and feedback will be posted to the 'Grades and Feedback' section on the Blackboard unit site. Please allow 7 days for marks to be posted.

Assessment Criteria

Your assessment will be evaluated based on the Rubric criteria - please see attached Rubric.

- Clarity and depth of reflection.
- Comprehensive coverage of the Illness-Wellness Continuum concepts.
- Application of the continuum to diverse health consumer narratives
- Consideration of cultural responsiveness and respect (including Aboriginal and Torres Strait Islander people).
- Quality of video presentation.
- You can mention references to support your work.

Please note that your presentation should be delivered **without** the use of PowerPoint, notes or prompts.

Assessment rubric

This rubric outlines the grading criteria against which your submission will be assessed, along with the standards expected for each grade level. For further information, refer to [Final Grades](#).

 NURS5009 - Assessment 1 - RUBRIC

Description of SCU Grades

High Distinction:

The student's performance, in addition to satisfying all of the basic learning requirements, demonstrates distinctive insight and ability in researching, analysing and applying relevant skills and concepts, and shows exceptional ability to synthesise, integrate and evaluate knowledge. The student's performance could be described as outstanding in relation to the learning requirements specified.

Distinction:

The student's performance, in addition to satisfying all of the basic learning requirements, demonstrates distinctive insight and ability in researching, analysing and applying relevant skills and concepts, and shows a well-developed ability to synthesise, integrate and evaluate knowledge. The student's performance could be described as distinguished in relation to the learning requirements specified.

Credit:

The student's performance, in addition to satisfying all of the basic learning requirements specified, demonstrates insight and ability in researching, analysing and applying relevant skills and concepts. The student's performance could be described as competent in relation to the learning requirements specified.

Pass:

The student's performance satisfies all of the basic learning requirements specified and provides a sound basis for proceeding to higher-level studies in the subject area. The student's performance could be described as satisfactory in relation to the learning requirements specified.

Fail:

The student's performance fails to satisfy the learning requirements specified.
