

NURS5010: Introduction to Clinical Practice: Reflective Portfolio Rubric

A passing grade of 50% must be achieved in the portfolio

Criterion	High Distinction (85%–100%)	Distinction (75%–84%)	Credit (65%–74%)	Pass (50%–64%)	High Fail (30%–49%)	Fail (0%–29%)
<u>Criterion 1:</u> (20%) Personal reflection & insight Depth of self-awareness, meaning-making, and recognition of learning.	Demonstrates deep personal insight; clearly explains what was learned and why it matters for safe, professional practice.	Strong reflection with clear learning; minor gaps in depth or clarity.	Competent reflection; some insight but still partly descriptive.	Basic reflection; meaning is present but limited or surface-level.	Mostly descriptive; little evidence of learning or insight.	No meaningful reflection or insight.
<u>Criterion 2:</u> (15%) Understanding of self-care in nursing Clarity, accuracy, and relevance of self-care concepts to nursing practice.	Demonstrates a clear, accurate understanding of self-care as a professional responsibility linked to safe, ethical practice.	Strong understanding with minor gaps; links to practice mostly clear.	Adequate understanding; some generalisation or limited relevance.	Basic understanding; relevance to nursing only partly explained.	Limited or inaccurate understanding; weak connection to practice.	No meaningful understanding of self-care in nursing.
<u>Criterion 3:</u> (20%) Professional Practice Connection Links between reflection, nursing identity, and NMBA expectations.	Makes clear, accurate, context-specific links to NMBA standards/codes and explains implications for safe practice.	Accurate NMBA links with minor generalities; implications mostly clear.	NMBA referenced correctly but applied in a general or partial way.	NMBA mentioned but superficially or inconsistently applied.	NMBA links weak, inaccurate, or poorly applied.	No credible use of NMBA; unsafe or inappropriate reasoning.

NURS5010: Introduction to Clinical Practice: Reflective Portfolio Rubric

<u>Criterion 4:</u> (15%) Evaluation of a self-care strategy Achievability, relevance, and justification of one strategy.	Identifies one clear, realistic self-care strategy and provides a strong, well-reasoned justification. Explicitly explains how the strategy supports wellbeing, emotional regulation, and safe, ethical nursing practice.	Identifies a realistic and appropriate strategy with clear justification. Links to wellbeing and safe practice are mostly well explained, with only minor gaps.	Identifies a clear and realistic strategy with some justification. Explanation of relevance to wellbeing or safe practice is present but general or partially developed.	Identifies a basic strategy. Realistic or relevance to wellbeing and safe practice is only partly explained.	Strategy unclear, unrealistic, or poorly justified. Limited or inaccurate connection to wellbeing or safe practice.	No strategy provided or response unrelated to the task
<u>Criterion 5:</u> (20%) Professional standards innovation Accurate understanding of The Registered Nurse Standards	Proposes one clear, specific, and realistic change to the NMBA Registered Nurse Standards for Practice. Demonstrates accurate understanding of the Standards and the chosen contemporary priority. Provides strong justification showing how the proposed change would strengthen caring, safe, ethical, or modern nursing practice.	Proposes a relevant and mostly clear change with sound justification. Demonstrates good understanding of the Standards and the chosen priority, with only minor gaps in clarity or depth.	Proposes a clear and realistic change but justification is general or partially developed. Demonstrates adequate understanding of the Standards and the chosen priority.	Suggests a basic or loosely relevant change with minimal justification. Limited connection to the Standards or the chosen priority.	Proposed change is unclear, unrealistic, or poorly connected to the Standards or contemporary priorities. Limited understanding demonstrated.	No meaningful change proposed or response is unrelated to the task.

NURS5010: Introduction to Clinical Practice: Reflective Portfolio Rubric

<u>Criterion 6:</u> (5%) Use of evidence and referencing Accurate use of NMBA documents only; correct APA 7th referencing.	NMBA documents used accurately and purposefully; APA 7th applied correctly; all writing in student's own words.	Accurate use of NMBA sources with minor APA or clarity issues.	Mostly correct referencing; occasional errors or generalities.	Basic referencing; limited accuracy or clarity.	Incorrect, inconsistent, or inappropriate use of NMBA sources.	No credible referencing; academic integrity concerns.
<u>Criterion 7:</u> (5%) Structure, Clarity and Expression Clarity, coherence, academic tone, readability, sentence level quality and professional communication.	Writing is consistently clear, coherent, and professionally expressed. Ideas flow logically within each section, with precise academic language, well-structured paragraphs, and excellent readability. Tone is reflective, professional, and appropriate for nursing.	Writing is clear and mostly coherent, with logical flow and appropriate academic tone. Minor lapses in expression or readability may be present but do not impede understanding.	Writing is generally understandable but may include occasional unclear sentences, inconsistent flow, or basic expression issues. Academic tone is adequate but not consistently maintained.	Writing lacks clarity or coherence in several areas. Expression is sometimes confusing, informal, or poorly structured, affecting readability.	Writing is frequently unclear, disjointed, or inappropriate in tone. Expression issues significantly impede understanding.	Writing is unclear, incoherent, or inappropriate throughout, preventing effective communication of ideas.
